### FOR IMMEDIATE RELEASE

Grace Management, Inc. Celebrates National Nurses Week May 6- 12, 2020

Nurses Are Our Heroes

Maple Grove, MN – May 6, 2020 — Nurses are an integral part of every senior living community. Grace Management, Inc. celebrates nurses and all in healthcare who tirelessly support us. We wish to highlight their tremendous contributions during National Nurses Week, May 6-12, 2020.

Our nursing associates are truly Healthcare Heroes. We wholeheartedly agree with the global proclamation of 2020 being The Year of the Nurse. This year has been one of the most defining moments in time showing all that nurses do and their contributions to global health.

“The nurses in our senior living communities provide the utmost care and compassion every day. We know that this year has been a true test to all who support and work in healthcare, and every single one of our nursing associates has stepped up and gone above and beyond. From learning new protocols that change daily to small actions that make a resident’s day, our nurses and wellness associates help each community elevate the senior living experience. Our team is truly amazing, and they have our sincere appreciation,” said Misty Polley, National Director of Clinical Operations for Grace Management, Inc.

In recognition of The Year of the Nurse, the [American Nurses Association](#) has expanded their celebration from one week to the entire month of May. We continually support and recognize all our nursing associates across the country. It is because of our nurses, our dedicated teams and incredible leadership that we remain confident that our communities are truly the best place for our residents and honored that each call our communities home.

That confidence remains through the global pandemic related to COVID-19 and is supported by our proactive and precautionary approach. Our senior living communities continue to follow the

recommendations and guidelines of the Centers for Disease Control and Prevention (CDC) as well as our local and state health departments. The partnership and cooperation of our residents, family members, associates, and local healthcare providers have also been invaluable as we navigate through the COVID-19 pandemic together.

The health and safety of our residents and associates is our number one priority. We know firsthand the difference each nurse and wellness associate make for each of our unique residents.

Grace Management believes in our nurses. Our company believes in the care, support, compassion, respect, and love shown to all residents each and every day. Working with seniors provides so many opportunities to truly make a difference and nurses are making a positive difference every day. We salute and honor all nurses as Healthcare Heroes.

About Grace Management, Inc.

Grace Management, Inc. was established in 1984 to develop, market, and manage residential communities for seniors. We believe that by combining sound fiscal and operational management, adherence to ethical standards, and balance in all aspects of our lives, Grace Management, Inc. will continue to be known as one of the finest senior housing management companies in the country.
